

Test name: User evaluation

Description: Gathering users opinion when using the application

Test status: Completed

Extension 1 (Bubble chart)	<ol style="list-style-type: none">1. Bubbles exhibit overlapping.2. Hovering the mouse over overlapping bubbles results in stacked information display.3. Date selection is challenging due to the abundance of dates; implementing a year-based filtering system could enhance usability.
Extension 2 (Bar chart)	<ol style="list-style-type: none">1. Sole reliance on a single dataset limits diversity; incorporating additional variables like gender (male and female population) would improve representation.2. Expanding data customization options would enrich user interaction.
Extension 3 (Candlestick Chart)	<ol style="list-style-type: none">1. X-axis labels are missing.2. Difficulty in locating specific datasets based on date.3. Implementing a scroll slider for horizontal graph navigation is recommended.
